

What's New in the Current Release?

Streamlined Navigation to Vehicle Selector: Upon logging into ProDemand, you now land with the Vehicle Selection page open and ready for the selection of the vehicle year. This enhancement will save you time by eliminating mouse clicks and driving your navigation directly to the 1Search home page where you can start your search.

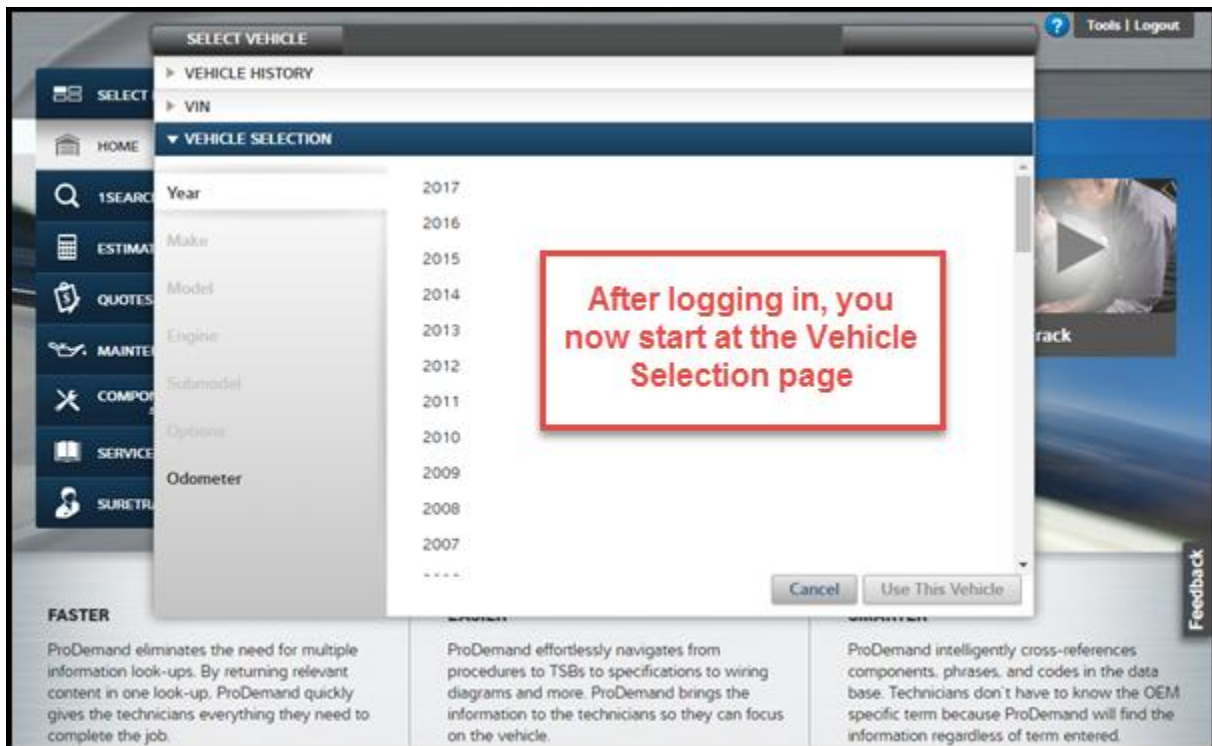

Figure 1 - New Streamlined Navigation to Vehicle Selector

If you want to go to the home page or to your saved quotes instead of 1Search, simply click on the Cancel button in the Vehicle Selector.

Legacy Internet Browser Support: Going forward, all new software features for ProDemand will be available only if you are using the latest versions of Internet Explorer, Google Chrome, and Mozilla Firefox. All other users with older browsers are redirected to a legacy ProDemand website with a static application feature set.

Mitchell 1 always recommends downloading the most up-to-date version of your preferred Internet browser so that you have the full ProDemand feature set and optimum experience using the software. For more information about Internet browsers and ProDemand, read the blog post: [What you need to know about Internet Browsers and ProDemand](#)
